SUMMARY

Customer operations and data support professional with 4+ years' experience across aviation, passenger services, education administration, customer coordination, and operational reporting.

- Strong background in high-volume operational environments including passenger check-in, VIP/corporate bookings, service coordination, compliance workflows, and cross-functional support across dnata, Marhaba, British Airways operations, and BCI Campus.
- Experienced managing customer records, Excel-based reporting, booking workflows, student databases, and compliance-sensitive operational data across aviation and education environments.
- Skilled across Excel, MySQL, Power BI, Tableau, basic Python, data cleaning, dashboard reporting, and CRM-style systems.

CORE SKILLS

- **Operations & Customer Support:** Customer Operations, CRM & Booking Coordination, Customer Experience, Complaint Resolution
- **Data & Reporting:** Data Cleaning, Data Validation, Excel Reporting, Spreadsheet Management, Operational Reporting
- **Coordination & Compliance:** Cross Functional Coordination, Stakeholder Communication, Process Accuracy, Compliance Support

TECHNICAL TOOLS

Excel (Pivot Tables, VLOOKUP, XLOOKUP), Power BI, Tableau, SQL/MySQL, Python fundamentals, CRM Systems

PROFESSIONAL EXPERIENCE

DNATA FOR BRITISH AIRWAYS

Austin, TX

Ground Services Agent

August 2023 – October 2023

Dnata USA ground handling operations supporting British Airways international passenger services and compliance workflows.

- Managed passenger check-in, travel documentation validation, and compliance checks for British Airways BA190 international flights between Austin and London Heathrow.
- Supported high-volume passenger operations across First, Business, and Economy check-in services for flights carrying approximately 300 passengers.
- Maintained accuracy of passenger documentation and transit compliance requirements to avoid operational penalties, service failures, and airline fines.
- Coordinated with airline and ground operations teams to support on-time departures, passenger processing, and service continuity.

DNATA MARHABA

Dubai, UAE

Customer Service Representative

November 2019 – February 2023

Global airport hospitality and passenger services operation supporting corporate, VIP, and international traveller experiences across Dubai International Airport.

- Managed high volume passenger bookings, amendments, and customer coordination across VIP, corporate, and specialist airport service operations.
- Handled 100+ bookings and 50+ customer emails per shift during peak operational periods.
- Supported operational workflows involving Emirates Ground Handling, dnata Specialist Assistance, vendors, and airport stakeholders.

- Coordinated bookings and passenger support for VIP travellers, corporate groups, and large scale events.
- Maintained booking accuracy, passenger data validation, and time sensitive service coordination across airport operations.
- Used Excel and operational systems to support booking coordination, reporting, and customer information management.

BCI CAMPUS

Programme Coordinator

Negombo, Sri Lanka

August 2015 – March 2019

Private higher education environment supporting student administration, enrolment coordination, reporting, and academic operations.

- Coordinated student enrolment operations supporting approximately 2,500 student intakes annually across multiple programmes.
- Managed migration of 4,000+ student records during implementation of the institution's student management system.
- Used Excel based reporting and database management across student records, exam processing, and academic workflows.
- Prepared operational and demographic reporting supporting enrolment forecasting and academic planning.

PROJECTS

QUANTIUM DATA ANALYTICS SIMULATION | Python | Forage

December 2025

- Analysed transactional datasets to identify customer behaviour, segmentation patterns, and commercial insights.
- Performed data preparation, benchmark analysis, and reporting using Python.

PROCUREMENT SPEND & SUPPLIER PERFORMANCE DASHBOARD | Power BI

November 2025

- Built a Power BI dashboard analysing procurement spend, supplier performance, and operational efficiency metrics.
- Cleaned and transformed datasets using Power Query and developed interactive reporting visuals.

AIRBNB LISTINGS ANALYSIS | Tableau & Excel

October 2025

- Cleaned and prepared approximately 3,800 Airbnb listing records using Excel based data preparation techniques.
- Conducted exploratory analysis in Tableau evaluating pricing trends, location patterns, and property performance indicators.
